Library faculty visited 356 classes to teach 7,856 students about research, media, and technology skills.
The Mathewson-IGT Knowledge Center and the DeLaMare Science and Engineering Library wholeheartedly embrace digital and information technologies while serving as the primary centers for information resources that support teaching, learning, and research at the University of Nevada, Reno. These libraries are dynamic learning spaces for students and faculty — places where resources, tools, and expert assistance are available to support the creation of new knowledge.
